WORK EXPERIENCE

Trust and Safety Customer Expert

Teleperformance | Berlin, Germany

2024 Apr. – 2026 Apr.

Reviewed and evaluated user- and AI-generated content for policy compliance, applying analytical thinking and decision-making to support platform safety and content quality.

QA Tester

Testlio | Remote

2022 Dec. – 2023 Dec.

As a freelance QA Tester at Testlio, I earned relevant experience in end-to-end, usability, localization, accessibility, exploratory, functional and regression testing, while working on different projects in a fully remote, project-based environment.

Frontend Developer

MOHAnet Mobilsystems | Budapest, Hungary

2021 Feb – 2022 Aug.

Participated in the full software development lifecycle, from design and implementation to deployment. Developed reusable components and integrated new features into existing codebases.

EDUCATION

Professional Training, AI-assisted Software Engineering

App Akademie GmbH | Berlin, Germany

2026 – 2027

MSc, Computer Science

University of Copenhagen | Copenhagen, Denmark

2022 – 2023 | Studies

Erasmus+ semester at Humboldt-Universität zu Berlin

BSc, Computer Science

Eötvös Lóránd University | Budapest, Hungary

2018 – 2021
